RE: Long Green Creek Stream Restoration
5300 Hydes Road
Stormwater Management Variance
Gunpowder Falls Watershed
EPS Project I.D. A054841
EPS Tracking Number: 03-18-2877

Dear Ms. Reed:

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the restoration of Long Green Creek. The existing cover conditions will be reestablished once the restoration is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.

Very truly yours,

/signed/

David V. Lykens, Acting Director
Department of Environmental Protection
